PROFESSIONAL SUMMARY

Aspiring Java Developer with hands-on experience building full-stack web applications using Spring Boot, React.js, MongoDB, and REST APIs. Skilled in backend development, database integration, API development, and responsive frontend design. Familiar with MySQL, Git, Postman, and modern web development practices. Seeking an entry-level Software Developer role focused on Java backend or full-stack development.

TECHNICAL SKILLS

Languages: Java, JavaScript
Backend: Spring Boot, REST APIs
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery, Vite.js
Databases: MySQL, MongoDB
Tools: Git, GitHub, Postman, WordPress, Figma

PROJECTS

Skill Swap Platform — Spring Boot, React.js, MongoDB, REST APIs, Tailwind CSS

- Built a full-stack platform for users to exchange and learn skills.
- Developed REST APIs for authentication, profile management, and skill listings.
- Integrated MongoDB with responsive React interfaces.
- Implemented frontend-backend integration and user authentication workflows.

Expense Tracker Dashboard — React.js, JavaScript, Tailwind CSS

- Developed a dashboard to track income, expenses, and savings.
- Implemented dynamic state management with real-time updates.
- Designed responsive user interfaces and optimized usability.
- Deployed the application on Netlify.

Clothing Website — JavaScript, jQuery, Bootstrap, HTML5, CSS3

- Built a responsive e-commerce frontend interface.
- Implemented product listing and navigation functionality.
- Applied mobile-first design principles and cross-browser compatibility.

EXPERIENCE

Freelance Web Developer

Feb 2026 – Present
Remote

- Developed responsive websites and landing pages using React.js and WordPress.
- Customized UI components according to client requirements.
- Managed deployment, maintenance, and version control using Git.

Frontend Developer Intern, ITDesk

Oct 2025 – Dec 2025
Hybrid

- Developed reusable React.js components and responsive user interfaces.
- Improved maintainability and cross-browser compatibility.
- Collaborated using Git and GitHub workflows.

EDUCATION

Tamil Nadu College of Engineering

B.E. Electronics and Communication Engineering

2021 – 2025
CGPA: 7.1

ACADEMIC PROJECT

Monitoring EV Battery Management System using IoT

- Developed an IoT-based battery monitoring system using ESP32.
- Integrated voltage, current, and temperature sensors for real-time monitoring.
- Implemented real-time data collection and monitoring functionality.

LANGUAGES

Tamil, English, Malayalam
